

Notice from the City of Graham: Due to concerns with upkeep and maintenance costs for the stoplight mechanism at the corner of 4th and Indiana we will be experimenting with making this intersection a three way stop. The lights will blink red all the time and you should treat this like you would a 3 way stop and yield to the right of way. We will run it this way for a couple of weeks starting on July 30th and see how the new set up works. Please feel free to contact City Hall with any questions or concerns during this time.

Notice from the City of Graham: We will be doing a system wide flush of the City of Graham water lines the first couple of weeks in August. This is not the "Burn Out" that we will do later on in the summer. This could break some sedimentation loose and as we do this we also recommend you flush your own lines as well. We will let you know when the "Burn Out" is scheduled later in the summer.
